NJMC Presents GIS Technology to Townships of Lyndhurst and South Hackensack

The New Jersey Meadowlands Commission presented a laptop computer with the capabilities of accessing the NJMC's Geographic Information System to officials from the Township of South Hackensack on February 28. The Meadowlands Environmental Research Institute, the scientific arm of the NJMC, develops and updates the GIS, which includes digital maps, emergency services and right-to-know data. Pictured left to right are NJMC Commissioners Michael Gonnelli and Leonard Kaiser, South Hackensack Deputy Fire Chief Jim Riley, NJMC Commissioner Eleanore Nissley, South Hackensack Fire Official Michael Cherubine, and NJMC Commissioners Arlene Walther and James Anzevino.

The New Jersey Meadowlands Commission presented a laptop computer with the capabilities of accessing the NJMC's Geographic Information System to officials from the Township of Lyndhurst on February 28. The Meadowlands Environmental Research Institute, the scientific arm of the NJMC, develops and updates the GIS, which includes digital maps, emergency services and right-to-know data. Pictured left to right are NJMC Commissioners Michael Gonnelli and Leonard Kaiser, Lyndhurst Fire Official Michael Antonicelli, Lyndhurst Commissioner Robert Giangeruso, NJMC Commissioner Eleanore Nissley, Lyndhurst Fire Chief Andrew Marmorato, Lyndhurst Police Chief James O'Connor, and NJMC Commissioners Arlene Walther and James Anzevino.
